SUMMARY

Information Systems graduate with hands-on experience in full-stack and mobile application development, specializing in building scalable and production-ready systems. Proficient in Next.js, Laravel, Flutter, PostgreSQL, and Docker, with experience developing multi-tenant ERP systems, real-time POS platforms, and operational dashboards. Skilled in REST API development, authentication systems (RBAC), and structured workflow implementation. Known for strong problem-solving, adaptability, and ownership in delivering reliable and efficient digital solutions in both independent and collaborative environments.

TECHNICAL SKILLS

Frontend:
Next.js (App Router), React, TailwindCSS, Flutter, HTML, CSS, Javascript, Bootstrap

Backend:
Laravel, Next.js Route Handlers, Prisma ORM, REST API

Database:
PostgreSQL, MySQL, SQLite, SQL Server

Mobile Development:
Kotlin (Android), Flutter

DevOps & Tools:
Docker, Git

PROJECT EXPERIENCE

Solvix ERP – Multi-Tenant ERP System
Next.js, TypeScript, Prisma, PostgreSQL

- Developed multi-tenant ERP covering finance, procurement, inventory, HR, and projects
- Implemented role-based access control (RBAC) and tenant-scoped data security
- Designed workflow automation and audit logging for operational governance

Solvix Moka POS – Realtime Coffee Shop POS
Next.js, PostgreSQL, SSE

- Built POS with realtime Kitchen Display System (New / In Progress / Ready)
- Implemented split payments, receipt generation, and offline auto-sync
- Developed manager analytics dashboard with sales reporting and CSV export

CashFlow – Android Finance Application
Kotlin, Jetpack Compose, Supabase

- Built mobile finance app with income/expense tracking and analytics
- Implemented AI-based financial insights and debt tracking module
- Integrated secure authentication and cloud synchronization

AS Nusa Trans Mobile – Logistics Operations Dashboard
Flutter, Supabase

- Developed role-based mobile dashboard for fleet, orders, and financial tracking
- Centralized operational monitoring with structured workflow controls

Solvix Studio – SaaS Agency Platform
Next.js, Prisma, PostgreSQL

- Built marketing website with authenticated client dashboard
- Developed multi-step order wizard and lifecycle tracking system
- Implemented route-level protection and RBAC enforcement
